Definitions:

Wellness Check: MACRO Responders identify people at risk of harm and seek to manage any safeguarding risks. Crews establish a person's location and ascertain whether the individual is alive, breathing and conscious but are limited to providing basic medical care, calling for medical transport, and offering information on organizations that can provide further services.

Sleeper: A **Wellness Check** performed on an individual who is first identified as sleeping.

Behavioral Health Concern: A person struggling with their behavioral health brought on by stress, addiction, depression, anxiety, relationship problems, grief, mood disorders, or other psychological concerns that interfere with their ability

Indecent Exposure: The exposure of one's body, especially the genitals or a woman's breasts, in a public place and in a way considered offensive.

Panhandling: Any solicitation made in person upon any street or public place in which a person requests an immediate donation from another person. The term does not include passively standing or sitting
